THE PROBLEM

Students often struggle to discover clubs, events and discussions because information is scattered across different platforms. CampusConnect brings these opportunities together in one central space where students can connect, participate and stay informed.

INSIGHTS

 Community interaction

Make discussions and participation easy.

 Responsive access

The experience should work across devices.

 Centralized information

One place for clubs, events and discussions.

 Easy discovery

Students should quickly find what interests them.

Stacked layout + mobile-friendly navigation

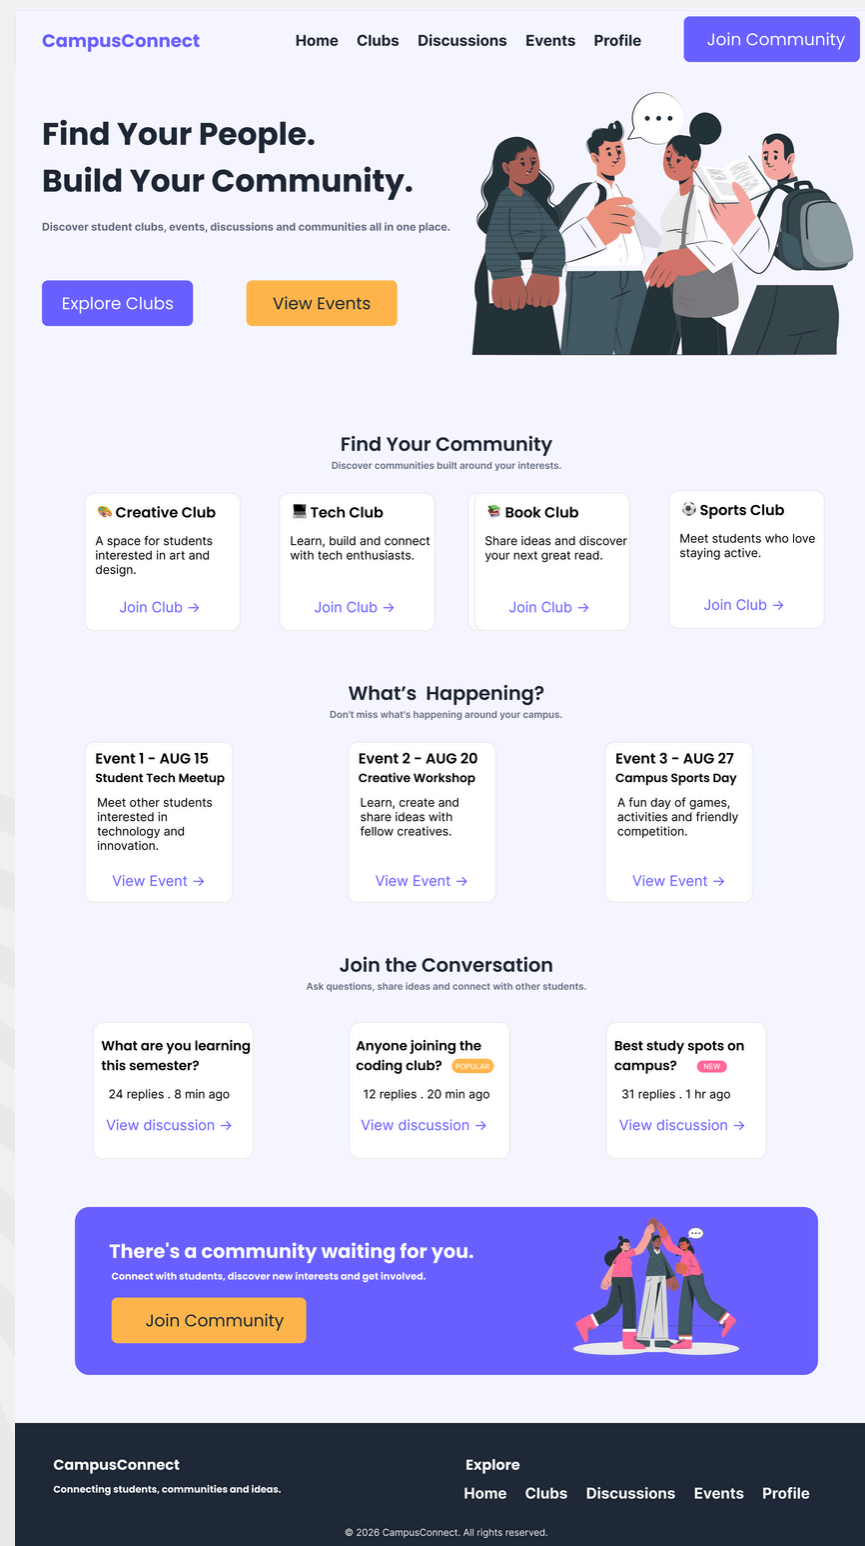

LAYOUT DECISIONS

- Two-column hero
- Text and actions on the left, illustration on the right.
- Card-based sections
- Clubs, events and discussions are presented as cards for easy scanning.
- Clear visual hierarchy
- Large headings, short descriptions and clear buttons guide the user.
- Responsive structure
- Desktop uses multi-column layouts while mobile stacks the content vertically

Two-column hero + multi-column card layout

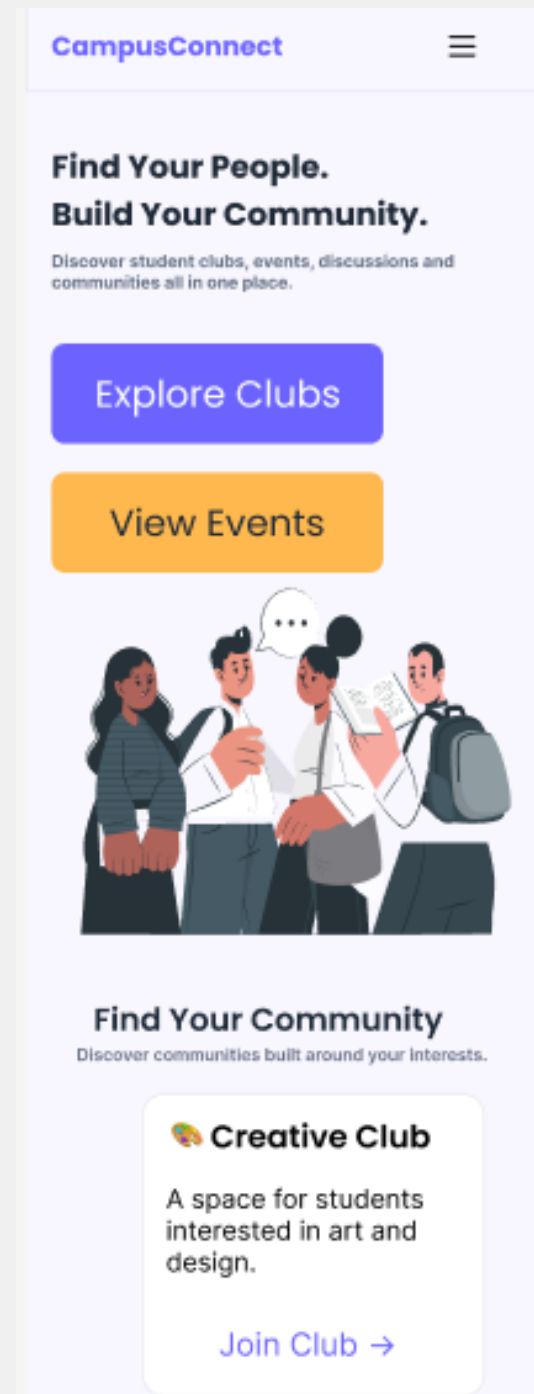

Desktop Homepage

- Two-column hero layout
- Multi-column club, event and discussion cards
- Clear navigation and calls to action
- Spacious layout designed for larger screens

Mobile Homepage

Presented by
Olasupo Toluwani

- Stacked content for smaller screens
- Mobile navigation with hamburger menu
- Single-column cards for easy scrolling
- Responsive buttons and spacing

UI System
